

FRIDAY, APRIL 22

EARTH DAY

4:00 TO 7:00 P.M.

Accelerating Innovative Urban Ideas in Water:

What are the current critical regional water issues? And how do we address them?

You are invited to participate in a conversation with state and local water experts to discuss challenges and opportunities relevant to urban sustainability. Meet with other attendees to enjoy complimentary food and drinks, and participate in a dialogue on water quality, availability, policy, politics, and citizen engagement. In addition, this will be the LAST EVENING that the Kaneko Water Exhibit will be open.

Panelists

Ann Bleed, PhD, PE Emeritus; former State Hydrologist and former Director, Nebraska Dept. of Nat. Resources
Alan Kolok, PhD; Director, NE Watershed Network (UNO), Center for Environmental Health and Toxicology (UNMC)
Jim Theiler, PE; Program Coordinator, Clean Solutions for Omaha (CSO) Program
Jared Svagera; Utilization Engineer, Metropolitan Utilities District

Location: The Kaneko, 1111 Jones Street, Omaha

Schedule:

4:00-4:45 P.M.	Introductory panel discussion
4:45-5:30 P.M.	Food/drinks; poster judging; audience discussion & ranking of issues
5:30-6:30 P.M.	Panel/audience discussion
6:30-7:00 P.M.	Food/drinks; final poster judging; posters awards presented

STUDENT POSTER PRESENTATIONS

Students from all metro area community colleges and universities are encouraged to submit posters addressing urban water issues; prizes totaling \$700 will be awarded.
